
Debenhams in the 1930 Federal Census of the United States (1 April 1930)

This document contains a listing of all Debenhams occurring in the 1930 Federal Census of the United States of America, arranged by household and listed in alphabetical order of States. It has been drawn from the on-line indexed copies of the original returns appearing on the site www.ancestry.com and its accuracy is dependent on the accuracy with which this index was compiled. The information is provided “as is”, in good faith, with no guarantee as to its final accuracy or completeness.

Each household entry includes state, county, township and address (where given). In Salt Lake county, Utah, four Debenham households are shown in 23rd Street without street numbers; they are distinguished as Household A to Household D inclusive.

Each person’s entry includes given names, age, marital status, relation to head of household, the places of birth of the individual, father and mother, and occupation.
